

daughter Dawn, and grandchildren, Landen and Paige. I know I join thousands of others in thanking John for his contribution to our community and wish him well in retirement.

PERSONAL EXPLANATION

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, August 2, 2013

Ms. LEE of California. Mr. Speaker, on Wednesday, July 31, 2013, I cast a “no” vote on the Motion to Concur in the Senate Amendment to H.R. 1911—Bipartisan Student Loan Certainty Act of 2013 (roll call vote 426). While I was pleased that there was a bipartisan effort to maintain low interest rates on subsidized student loans, unfortunately this compromise will ultimately increase interest rates on all Federal Direct Loans, including subsidized loans. As a proud original co-sponsor of H.R. 1911, the Bank on Students Loan Fairness Act, I believe students should be allowed to borrow funds at the same low rate that banks borrow from the Federal Reserve. It’s essential that our students come out of college with not only good skills, but without the burden of manageable debt so that they can get good jobs and truly thrive. I look forward to working to make college more affordable and financial aid more accessible for students.

HONORING DR. JULIET V. GARCIA

HON. FILEMON VELA

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, August 2, 2013

Mr. VELA. Mr. Speaker, I rise today to recognize Dr. Juliet V. Garcia who is being honored with the 9th annual Award of Distinction from the Girl Scouts of Greater South Texas. This award recognizes her service and commitment to making the local community a better place, most notably as an advocate for increased access to higher education.

Dr. Garcia became the first Mexican-American woman in the nation to serve as the president of a college or university when she was named president of Texas Southmost College in 1986. She is now president of the University of Texas at Brownsville where she continues to exemplify an extraordinary commitment to both the university and the community.

A tireless advocate, Dr. Garcia’s public service includes chairing the Advisory Committee to Congress on Student Financial Assistance as well as serving on the White House Initiative on Educational Excellence for Hispanic Americans. She is currently a member of the boards of the Ford Foundation, the Public Welfare Foundation, the Robert Wood Johnson Foundation, Humanities Texas, and Raise Your Hand Texas.

Mr. Speaker, I appreciate having this opportunity to honor Dr. Juliet V. Garcia, one of the remarkable people I have the privilege of representing.

IN RECOGNITION OF DENSO INTERNATIONAL AMERICA FOR TWENTY-FIVE YEARS OF OPERATION IN MICHIGAN

HON. GARY C. PETERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, August 2, 2013

Mr. PETERS of Michigan. Mr. Speaker, I rise today to recognize Denso International America as it celebrates twenty-five years of operation. Two and a half decades ago, Denso opened the doors of its North American Headquarters and Technical Center in the heart of Southfield, Michigan, and became part of the business community in the Greater Detroit region.

Founded internationally in 1949, the heart of Denso’s business strategy is its work force, which it describes as a core element of its global organization. In its primary function, Denso believes that its first business is the development of people and from the development of people it achieves its goal of making products which improve the world. As a firm that is heavily invested in its work force, Denso seeks to ensure that it achieves excellence by encouraging its employees to harness their creative power and work cooperatively to achieve personal growth.

With a commitment to its employees’ development serving as the foundation of its organization, Denso is committed to creating high quality products for use in automobiles. The extent of Denso products to the automotive industry include radiators, driving control systems, fuel pumps, electronic fuel injection systems, and wiper systems, all manufactured with the principle of smaller, lighter and more efficient design. As its business has grown, Denso has dramatically increased its footprint in North America, bringing high skilled jobs to communities in Michigan, where it currently operates five major facilities, and across the United States, with twenty-five facilities in total.

Denso’s commitment to excellence for employees is one that it also extends into its own activities in the communities where it operates. On numerous occasions Denso has been cited as a model for implementing environmentally conscious policies, while creating manufacturing techniques that increase productivity. In 1993, Denso was recognized for its work by the U.S. Environmental Protection Agency (EPA) as a corporate leader in protecting the ozone layer with the Stratospheric Ozone Protection Award. Just five years later, Denso voluntarily moved to ISO 14001 certification for its manufacturing in Michigan, choosing to adhere to a high standard of excellence to decrease its environmental impact. As further recognition of its efforts to be a good corporate partner and custodian to the communities it employs, Denso was awarded the EPA’s Climate Protection Award in 2002.

Denso’s leadership has not only been recognized by the government, but also by many of its business partners. In 2012, it was recognized by Caterpillar as a Platinum Supplier and by John Deere with its Achieving Excellence Award. Over the last few years Denso has been recognized by each of the Big 3: Ford, General Motors and Chrysler for its outstanding work as a supplier to each of them. In addition to its recognition from its corporate

partners, Denso has been recognized by communities that have benefited from the work of its foundation, which supports disaster relief and science education programs.

Mr. Speaker, I ask my colleagues to join me in recognizing Denso International America for twenty-five years of excellence in manufacturing, in leadership on being a corporate steward of the environment and on the tremendous impact it has made in each of the communities its facilities call home. I am honored to have such an outstanding company headquartered in my district, and I look forward to continuing my work with Denso to support advanced manufacturing techniques that will revitalize the economy of Michigan.

RECOGNIZING THE EFFORTS OF THE QUINAUT INDIAN NATION IN HOSTING THE “PADDLE TO QUINAUT” 2013 CANOE JOURNEY

HON. DEREK KILMER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, August 2, 2013

Mr. KILMER. Mr. Speaker, I rise today to recognize the Quinault Indian Nation and the Quinault Canoe Society in their efforts to host the 2013 Canoe Journey. This annual event revitalizes the cultural practice of canoeing for Indian Nations and communities throughout the Salish Sea Region. Our region is a stronger region because of its diversity and its rich history. It is important to come together to celebrate not only what we do but who we are and where we’ve been.

In 1989, Emmit Oliver, a Quinault Tribal elder, organized the “Paddle to Seattle” as a part of the Washington State Centennial Ceremony. This event celebrated Tribal canoe cultures that once traveled and hunted using dugout canoes. The success of the event inspired the annual Canoe Journey, which officially began in 1995. Since then, Tribal leaders and community members have traveled from along the West Coast each year to continue this celebration of past traditions. Today, I am honored to help Quinault Indian Nation President Fawn Sharp in welcoming the 2013 fleet of canoes into Point Grenville.

Mr. Speaker, I am pleased to support the effort to revitalize and maintain the cultural practices of Indian Nations. This year, Tribal delegations hailing from the Western United States, Canada, Hawaii, and New Zealand will take part in this historic journey. Upwards of 10,000 people are estimated to await the incoming paddlers and partake in the subsequent ceremonies. The festivities will serve to teach younger generations the skill of canoeing, to strengthen and instill pride, and reinforce cultural knowledge. I applaud all the efforts of members of the Quinault Indian Nation, neighboring Tribes, and the greater Grays Harbor Community who have made this year’s Canoe Journey possible.

As I close, I can say with certainty that the “Paddle to Quinault” has greatly benefited our community and I am pleased to recognize the efforts of all involved during this weeklong celebration, today, in the United States Congress.
